

Refurbished Inter-tel Axxent Phone System 4x12 with Voice Mail

See our website for pricing.

Expect the best with the Inter-tel Axxent system, which takes advantage of the converging of computer and telecom applications. The Axxent system utilizes CTI technology, which automates tasks, improves performance and allows custom programming to fit your business. Automatic call distribution provides everything you need for call distribution to groups of employees, like customer service or sales representatives.

The fact that the Inter-tel Axxent system is digital means that, as your business grows and technology advances, you will be able to expand. The Inter-tel Axxent system is perfect for budget-conscious smaller businesses needing less than 24 phones.

Advantages of the Axxent System:

- Automatic call distribution and caller id standard
- Expandable to 12 lines with 24 telephones.
- CTI compatible
- Excellent voicemail integration with LCD phones.

Features of the Basic Inter-tel Axxent System:

- Includes integrated voice mail
- Automatic call distribution
- Caller ID
- Custom call routing announcements
- 4x12 expandable to 12x24
- 25 Unit PAL
- 4 Port 40 Hour Voice Mail DSP Kits 1&2
- 2.0 Software
- Compares elsewhere on-line for \$3335.00 refurbished.
